For over forty-five years, the Chesapeake name has been synonymous with top quality broadleaf evergreens. We now encompass over 1300 acres on Maryland’s Eastern Shore. Approximately two thirds of this acreage is used for the production of high quality ornamental shrubs. We currently grow over 200 varieties of Azaleas, Barberry, Boxwood, Cotoneaster, Hydrangea, Ilex, Kalmia, Nandina, Ornamental Grasses, Pieris, Rhododendrons, and many more in various sizes suitable for garden centers, landscape contractors and re-distribution centers.

The sales office, propagation department and Pemberton farm, is located three miles west of Salisbury on Pemberton Drive. Loading and shipping facilities, the repair and fabrication shop and the Green Hill farm, are 11 miles west of Salisbury on MD Route 352.

The nursery was started in 1962 with the first propagation in one unheated, deep cold frame. Our “nursery’s nursery” now consists of more than 50,000 square feet of heated space including a ¼ acre Cravo retractable roof greenhouse, the first one of its kind on the east coast. Over 600,000 liners are produced each year. Most liners start as softwood cuttings planted in a mixture of peat and perlite and rooted under intermittent mist.

Chesapeake’s container operation started in the mid-80’s and is now producing over 800,000 plants per year in 3 to 20 gallon plastic pots. We are currently growing in 1200, 300’ hoop houses. We primarily use bark as our growing media and fertilize with mostly dry granular slow release fertilizers. Much emphasis is placed on growing full, dense, healthy, top quality plants. Tremendous time, effort and resources go into production techniques, over-wintering, shipping and customer service. Plants are pruned many times during their production to develop well branched, properly shaped, full tops. Six key managers individually label plants by shipment with strict adherence to uniform grading. No plants are pulled in advance; each plant is selected just prior to loading.

In the pulling operations, all plants are placed on 4’ x 6’ pallets to eliminate additional lifting and handling. Currently 25 semi trailers and two straight trucks are used to send out over 1000 loads per year to markets in the Northeast and Midwest. All of our delivery vehicles are decked to insure plants arrive to you in excellent condition. No plant material is double-stacked. We are currently loading as many as 15 loads per day with three crews using four docks with conveyors.

Ovr the last 5 years we have converted all of our ilex, euonymus and boxwood from field production to container production. This has been a monumental task. We have constructed over 700, 300’ x 18’ hoop houses, two large wet well systems with four 75 horsepower, 2000 gallon per minute, vertical turbine pumps each, increased our water holding capacity by 30% and moved countless yards of earth for grading and road building.

What does all this mean to you the customer? It means more consistency, the container plants are grown in a more controlled environment and the crop is more uniform from beginning to end and year to year. Better winter protection means your early spring shipments are ready when you are. Container grown plants are much easier for you and your customers to handle and maintain in your yards.

The conversion to container growing has not allowed us to expand our product mix. Our next project will be to install a pot-in-pot system on at least one of our farms. We want to be able to add several new product lines to our mix to broaden your choices for quality plant material. If you haven’t been to the nursery in the last couple of years you can’t imagine how much we’ve accomplished. We welcome the opportunity to show you around.
**AZALEA APHRODITE**
Mature height: 4 feet
Mature spread: 5 feet
Zones: 6

**AZALEA BLAAWS PINK**
Mature height: 4 feet
Mature spread: 3-4 feet
Zones: 6

**AZALEA CONVERSATION PIECE**
Very interesting large single flowers that vary from solid pink to light pink with white margins, often with white flowers on the same plant. Late flower. Robin Hill.
Mature height: 3 feet
Mature spread: 3 feet
Zones: 6

**AZALEA DELAWARE VALLEY WHITE**
Large, pure white Kurume, very hardy. The most popular white Azalea. Large grower to 3-4’.
Mature height: 3-4 feet
Mature spread: 4-5 feet
Zones: 6

**AZALEA ELSIE LEE**
(Shammarello’s Double Lavender) Hardy, very light lavender. Midseason. Excellent performer. Medium grower.
Mature height: 3 feet
Mature spread: 3 feet
Zones: 5

**AZALEA FLAME CREEPER**
Dwarf Satsuki variety with a red dish orange flower. Excellent ground cover. Low and spreading.
Mature height: 18-24”
Mature spread: 3-4 feet
Zones: 7

**AZALEA GIRARD CRIMSON**
Large crimson flowers. Compact habit with nice foliage. Grows to 2-3’.
Mature height: 3 feet
Mature spread: 4 feet
Zones: 5

**AZALEA GIRARD FUSCHIA**
Striking reddish purple selection. Midseason. Good compact grower to 3’.
Mature height: 3-4 feet
Mature spread: 4-5 feet
Zones: 5
**AZALEA GIRARD ROSE**
Large brilliant rose with excellent foliage. Very hardy. Compact grower to 3'.
Mature height: **3 4 feet**
Mature spread: **4-5 feet**
Zones: **5**

**AZALEA GUMPO PINK**
Outstanding dwarf Satsuki with large pink flowers. Late. Low grower.
Mature height: **2½-3 feet**
Mature spread: **3-3½ feet**
Zones: **6**

**AZALEA GUMPO WHITE**
Outstanding dwarf Satsuki with large white flowers. Late. Low grower.
Mature height: **3 feet**
Mature spread: **4 feet**
Zones: **6**

**AZALEA HARDY GARDENIA**
Mature height: **2-3 feet**
Mature spread: **3-4 feet**
Zones: **7**

**AZALEA HELEN CURTIS**
Mature height: **2-3 feet**
Mature spread: **3 feet**
Zones: **5**

**AZALEA HERBERT**
Very hardy semi-double purple Gable. Medium grower.
Mature height: **3 4 feet**
Mature spread: **4 5 feet**
Zones: **5**

**AZALEA HINOCRIMSON**
Bright red Kurume, regaining popularity because of good dependable flowers and foliage. Early. Compact to 3'.
Mature height: **3-4 feet**
Mature spread: **4 5 feet**
Zones: **5**

**AZALEA JOSEPH HILL**
One of the best of the ground cover type North Tisbury Nakaharae hybrids from Polly Hill. Very late flowering bright red.
Mature height: **1 foot**
Mature spread: **3 feet**
Zones: **5**
AZALEA KAEMPO
Excellent dwarf variety with silvery pink flowers late in season. Cross of Kaempferi and Gumpo.
Mature height: 2 feet
Mature spread: 3 feet
Zones: 5

AZALEA KAREN
Early single purple. Hardy. Large grower.
Mature height: 3-4 feet
Mature spread: 4-5 feet
Zones: 4

AZALEA LADY ROBIN
Large 3” single flowers varying from white to full pink with occasional pink stripes. One of the best flowering Robin Hill selections. Low. Compact.
Mature height: 1 foot
Mature spread: 3 feet
Zones: 6

AZALEA MACRANTHA
Salmon red Indicum, late flowering, dwarf variety. Low grower.
Mature height: 3 feet
Mature spread: 3 feet
Zones: 7

AZALEA MICHAEL HILL
Another excellent low, dwarf ground cover hybrid from Polly Hill’s Vineyard Haven, MA garden. Late flowering pink.
Mature height: 
Mature spread: 
Zones: 5

AZALEA MOTHER’S DAY
Mature height: 
Mature spread: 
Zones: 5

AZALEA NANCY OF ROBIN HILL
Outstanding hose-in-hose double pale pink flower. Gartrell’s favorite. Late. Low grower.
Mature height: 2 feet
Mature spread: 3 feet
Zones: 6

AZALEA PLEASANT WHITE
Mature height: 2-3 feet
Mature spread: 3 feet
Zones: 5
AZALEA
POUKHANENSIS
COMPACTA
Exceptionally hardy, low growing form of Poukhanense. Lavender flowers. Early.
Mature height: 4 feet
Mature spread: 5 feet
Zones: 5

AZALEA
RENEE MICHELLE
Beautiful large pink flowers late in season. Low growth habit. Hardy. One of Girard’s best.
Mature height: 3 feet
Mature spread: 5 feet
Zones: 6

AZALEA
ROSEBUD
Double pink Gable. Late. Very compact. Hardy.
Mature height: 2 feet
Mature spread: 2 feet
Zones: 5

AZALEA
STEWARTSONIAN
Mature height: 5-6 feet
Mature spread: 4-5 feet
Zones: 5

AZALEA
TRADITION
Mature height: 3-4 feet
Mature spread: 4-5 feet
Zones: 5

AZALEA
WINTERGREEN
Outstanding ground cover type North Tisbury hybrid. Salmon red flower in very late Spring.
Mature height: 2 feet
Mature spread: 4 feet
Zones: 5

AZALEA
YUKA
Dwarf Satsuki selection from Polly Hill. Large single white with flecks of pink.
Mature height: 3-4 feet
Mature spread: 4-5 feet
Zones: 6

**GRASS MISCANTHUS MORNING LIGHT**

Grows to 4', narrow dark green foliage, streaked with white. Reddish blooms in early September.

Mature height: **4 feet**  
Mature spread: **2 feet**  
Zones: **5**
**HYDRANGEA ALL SUMMER BEAUTY**

Smaller than Nikko Blue. Profuse bloomer. Flowers range from pink to blue and often rebloom.

Mature height: 3-5 feet
Mature spread: 3-5 feet
Zones: 5

**HYDRANGEA ENDLESS SUMMER**

Hardy, repeat bloomer on both old and new wood. Showy flower mops with pink to blue blooms. Mature size 3’-5’.

Mature height: 5 feet
Mature spread: 5 feet
Zones: 4

**HYDRANGEA BLUSHING BRIDE**

Rebloomer like the Endless Summer, but with white blooms that will fade to blush or pale blue depending on pH of soil. Mophead blooms against dark green foliage.

Mature height: 4-5 feet
Mature spread: 4-5 feet
Zones: 5

**HYDRANGEA GLOWING EMBERS**

Bright pink blooms that will not turn blue. Mature size 3’ x 3’.

Mature height: 3 feet
Mature spread: 3 feet
Zones: 5

**HEMEROCLALLIS PARDON ME**

Fragrant, wine-red flower with yellow throat. Rebloomer.

Mature height: Foliage grows to 1½ feet, flower stalk slightly taller.
Mature spread: 1½ feet
Zones: 3-9

**HEMEROCLALLIS STELLA D’ORO**

Golden yellow blooms that repeat thru the summer. Very dwarf.

Mature height: Foliage up to 12 inches and flower stalks to 2.5 feet
Mature spread: 12 inches
Zones: 3-9

**HEMEROCLALLIS BLUSHING BRIDE**

Rebloomer like the Endless Summer, but with white blooms that will fade to blush or pale blue depending on pH of soil. Mophead blooms against dark green foliage.

Mature height: 4-5 feet
Mature spread: 4-5 feet
Zones: 5
HYDRANGEA NIKKO BLUE
Beautiful globe-shaped blue flowers in acid soils. (Flowers will be pink in alkaline soils.) Nice rounded shape that will grow to 5'. A prolific bloomer.
Mature height: 5 feet
Mature spread: 5 feet
Zones: 5

HYDRANGEA PETIOLARIS
Elegant vine with glossy dark green leaves and profuse lacy white flowers in June. Grown in a 5 gallon can and attached to a trellis. Can climb to 30'+!
Mature height: 30+ feet
Mature spread: 30+ feet
Zones: 4

HYDRANGEA Q. PEE WEE
Compact grower, 3' x 3'. Flowers only 4-5" long. Showy, wine red autumn foliage.
Mature height: 3 feet
Mature spread: 3 feet
Zones: 5

HYDRANGEA Q. SYKES DWARF
Another compact form, only 3-4' tall with closely spaced foliage and white flowers.
Mature height: 3-4 feet
Mature spread: 3-4 feet
Zones: 5

HYDRANGEA TWIST AND SHOUT
Another compact form, only 3-4' tall with closely spaced foliage and white flowers.
Mature height: 3-4 feet
Mature spread: 3-4 feet
Zones: 5

ITEA VIRGINICA HENRY'S GARNET
Deciduous shrub with brilliant garnet red fall color. Fragrant upright white flower racemes in late Spring. Matures to 4' x 5'.
Mature height: 4 feet
Mature spread: 5 feet
Zones: 5

ILEX AQUIP DRAGON LADY
Mature height: 15 feet
Mature spread: 5-6 feet
Zones: 5

ILEX CRENAATA CHESAPEAKE
Beautiful pyramidal variety with deep green color and glossy convex leaves. Grows to a 6-7' height by 4' wide.
Mature height: 6-7 feet
Mature spread: 4 feet
Zones: 5
ILEX CRENATA EXCELSA SCHWOEBEL
- Very hardy pyramidal Jap Holly. Flat leaf. Grows to 6-8’.
- Mature height: 6-8 feet
- Mature spread: 12-18”
- Zones: 5

ILEX CRENATA NIGRA
- Pyramid growth habit, 6’ x 4’. Slightly larger leaf than Steeds with a dark bluish green cast.
- Mature height: 6 feet
- Mature spread: 4 feet
- Zones: 5

ILEX CRENATA SKY PENCIL
- Slender, upright evergreen shrub. Shears great for a formal look or to use as a vertical accent.
- Mature height: 6-8 feet
- Mature spread: 12-18”
- Zones: 5

ILEX CRENATA STEEDS
- Pyramid growth habit, although narrower than other upright Japanese hollies. Very nice, dark green foliage. Excellent choice for hedge or screen. 8’ tall x 4’ wide.
- Mature height: 8 feet
- Mature spread: 4 feet
- Zones: 6

ILEX CRENATA COMPACTA
- Excellent dark green color. Strong grower, very dense. Can take heavy shearing. Bennett hybrid.
- Mature height: 3-4 feet
- Mature spread: 4-5 feet
- Zones: 6

ILEX CRENATA GREEN LUSTRE
- Compact, dark green lustrous foliage.
- Mature height: 4 feet
- Mature spread: 4 feet
- Zones: 6

ILEX CRENATA HELLERI
- Dark green, dense, twiggy foliage to 5’ tall x 10’ wide.
- Mature height: 5 feet
- Mature spread: 10 feet
- Zones: 6

ILEX CRENATA HETZI
- Large, lustrous convex leaf. Strong grower to 6’ tall x 10’ wide. Hardy.
- Mature height: 6 feet
- Mature spread: 10 feet
- Zones: 5
ILEX GLABRA

**COMPACTA**

Extremely hardy Holly. Grows 3-4'. Light shade or sun. Good compact strain.

Mature height: **4 feet**
Mature spread: **4 feet**
Zones: **4**

---

ILEX MESERVEAE

**BLUE GIRL**

Medium growing hardy Holly from Aquifolia-Rugosa cross.

Mature height: **6-8 feet**
Mature spread: **4-6 feet**
Zones: **5**

---

ILEX GLABRA

**SHAMROCK**

Another good selection that has gained acceptance in the trade.

Mature height: **2-4 feet**
Mature spread: **2-4 feet**
Zones: **4**

---

ILEX MESERVEAE

**BLUE MAID**

Plant Patent 4865. One of the best of the hardy Blue Hollies. A broad pyramidal grower up to 15' with large red berries. Hardy to -15º F.

Mature height: **10-15 feet**
Mature spread: **6-8 feet**
Zones: **4**

---

ILEX CRENATA

**HOOGENDORN**

A semi-dwarf holly with a finer textured appearance due to smaller, more elongated leaves.

Mature height: **2 feet**
Mature spread: **3 feet**
Zones: **6**

---

ILEX CRENATA

**HOWARDI**

Excellent convex leaf spreading Japanese Holly. More uniform growing habit and better year round foliage color than Ilex convexa.

Mature height: **4-6 feet**
Mature spread: **Zones: 6**

---

ILEX CRENATA

**SCHWOEBEL COMPACTA**

We are growing this medium dwarf low spreading ilex because it is much hardier than most of the compact Japanese Hollies. Very dependable. Becoming the landscaper’s choice. Similar overall habit to c. Helleri, but much faster growing. It matures to 4' tall x 8' wide.

Mature height: **4 feet**
Mature spread: **8 feet**
Zones: **5**

---

ILEX CRENATA

**SOFT TOUCH**

A Rutgers University introduction. Dense and compact, only reaching 2' x 3'. Dark green, soft textured foliage. Good substitute for c. Helleri.

Mature height: **2-3 feet**
Mature spread: **2-3 feet**
Zones: **6**

---

ILEX CRENATA

**SCHWOEBEL COM-PACTA**

We are growing this medium dwarf low spreading ilex because it is much hardier than most of the compact Japanese Hollies. Very dependable. Becoming the landscaper’s choice. Similar overall habit to c. Helleri, but much faster growing. It matures to 4' tall x 8' wide.

Mature height: **4 feet**
Mature spread: **8 feet**
Zones: **5**

---

ILEX CRENATA

**SCHWOEBEL COM-PACTA**

We are growing this medium dwarf low spreading ilex because it is much hardier than most of the compact Japanese Hollies. Very dependable. Becoming the landscaper’s choice. Similar overall habit to c. Helleri, but much faster growing. It matures to 4' tall x 8' wide.

Mature height: **4 feet**
Mature spread: **8 feet**

TERMS AND CONDITIONS OF SALE
ALL ORDERS accepted are subject to crop losses or any other condition beyond our control.

SUBSTITUTION OF SIZES - we reserve the right to ship the next grade larger or smaller at the current price of that grade if the grade ordered is not available.

PRICES are subject to change without notice. Prices are FOB our nursery at Green Hill, near Salisbury, Maryland.

PAYMENT - Unless otherwise agreed, all payment, including freight, is due at time of delivery. For your convenience we accept MasterCard, Visa, Discover, and American Express for plant purchases.

CREDIT TERMS are available after approval of a credit application. Terms for customers with established credit are net 30 days from date of shipment. A finance charge of 1½% per month (18% annually) will be applied on all accounts not paid within 30 days.

CLAIMS must be made in writing within 5 days after receipt of plants.

PLANT WARRANTY - we express or imply no warranty or guarantee of continued life of any plant.

ALL ORDERS are based on the distinct understanding that the purchaser agrees to the conditions of sales as stated above.

DELIVERY SERVICE
We arrange for economical delivery to most locations from Washington, D.C. to Boston and west to St. Louis. Plants are carefully loaded, single stacked on several decks. Freight charges are always net, due and payable at time of delivery.

All customers are expected to provide labor for unloading each delivery.

MINIMUM ORDER FOR DELIVERY $2500.00
MINIMUM ORDER FOR PICKUP $500.00
